### **Scheme Manager Curriculum Vitae**

PRO Insurance Solutions Limited (“PRO”) provides client focused assistance and solutions for live and discounted (re)insurance liabilities and reinsurance asset management.

PRO was established in 1993 by the EAUA Pools' participants following the collapse into insolvency of English & American Insurance Company Limited and of English & American Underwriting Agency Limited. PRO has managed the run-off of the Pools' business, except Transglobe Re, on behalf of all Pools participants (solvent and insolvent) since that time. PRO specialises in the run-off administration of pools and, through its management of the Willis Faber (Underwriting Management) Ltd pools and the English & American Underwriting Agency Ltd pools, it has unrivalled experience of the complexities surrounding the management of pools in run-off where there are both solvent and insolvent pool members.

The company became a subsidiary of Tawa Plc in November 2009.

PRO is a leading provider of run-off solutions to the solvent and insolvent insurance market. It provides a range of run-off services from full run-off management to consultancy services and debt purchase for the London market and a range of international clients.
